

25X1

TECHNICAL MEMORANDUM

To: John C.  
From: [REDACTED]  
Subject: Lecture Notes, Lecture #2  
Reference: [REDACTED] 2201201-TM-70-2  
Date: May 5, 1970

25X1

25X1

Enclosed are six copies of the lecture notes prepared for the second contractual visit to the [REDACTED]

25X1

The subject contained in these notes is directed towards an analysis of the interferometer to be used for generation of holographic detection filters, and the coherent optical bench for detection filtering activity. The subjects covered during these initial lectures will be directed closely to the systems set-up and implementation in the laboratory.
